

## **Erratum**

Iwasaki JM, Miller C, Donovan BJ (2017) New records for *Bombus terrestris* (Hymenoptera: Apoidea) on flowers of native plants in New Zealand. *The Weta* 51: 47-50.

An error occurred in Table 1 of the original version of this paper, in that the location of the *Bombus terrestris* record of 19/12/07 on *Peraxilla* sp was given as The Remarkables, Otago. This record was actually from Lake Ohau. The correct version of Table 1 is given below.

**Table 1.** List of plant species and details of *Bombus terrestris* sightings.  
CO - Central Otago; MK - Mackenzie

Plant Family	Plant species	Bee Caste	Forage	Site	Date of initial observation
Asteraceae	<i>Celmisia gracilentia</i>	worker	nectar	The Remarkables, CO	6.1.2016
Campanulaceae	<i>Lobelia</i> sp.			The Remarkables, CO	summer 2014
Ericaceae	<i>Dracophyllum rosmarinifolium</i>	queen	nectar	The Remarkables, CO	14.12.2014
Ericaceae	<i>Gaultheria nubicola</i>	queen, worker	nectar	The Remarkables, CO	5.1.2016
Ericaceae	<i>Leucopogon fraseri</i>	queen, worker	nectar	The Remarkables, CO	23.11.2014
Gentianaceae	<i>Gentianella corymbifera</i>			The Remarkables, CO	summer 2014
Loranthaceae	<i>Peraxilla</i> sp.	queen	nectar	Lake Ohau Village, MK	19.12.2007
